

Happy and healthy product!

COMPANY PROFILE

About us

Our journey began as a producer of automatic cashew nut cutting machines under the name Dai Hoang Kim. This gave us a significant advantage, and in 2019, CPT Corp was established, inheriting the most advanced technologies in cashew processing and manufacturing. Today, CPT Corp has become one of the leading cashew suppliers in Vietnam. After a decade of growth, CPT Food was established in 2024, continuing to build on existing technological achievements but now extending beyond the cashew industry to include dry and frozen agricultural products and related rice such as rice flour.

Our History

2014

ESTABLISHMENT OF THE DAI HOANG KIM COMPANY

We are the family Company named Dai Hoang Kim, our start-up is an automatic Cashew Nut Cutting Machine Manufacturer. We provide automatic cashew nut splitting machines to help cashew processing businesses optimize profits and reduce production costs. Nowadays, we become one of the Asia top suppliers for the automatic Cashew Nut Cutting Machine.

2019

ESTABLISH CPT CORP

With the desire to inherit and continue to apply the most modern technologies in cashew nut production, CPT Corp was born, thereby contributing to the sustainable development chain of the cashew industry in Viet Nam. CPT Corp is one of the leading companies exporting cashew nuts from Vietnam to international markets.

2024

ESTABLISH CPT FOOD

After 10 years, CPT FOOD Joint Stock Company was established in 2024, specializing in the processing and exporting of dried agricultural products, premium freezing, with the goal of integrating into the Vietnamese market and continuing to apply advanced technology in the production of dried agricultural products, freezing, and related F&B products in Vietnam.

Mission

With the mission "Happy and Healthy Product", we aim to improve for the sustainable value chain of the not only cashew nuts but also fruits industry by utilizing the most modern technologies in production, improving the quality of cashew nuts and fruits following the strictest food safety standard. With the C logo featuring 3 screw nuts representing "Farmers, Factory Workers, and Customers" and revolving around the letter P symbolizing CPT at the center, CPT connects and protects and brings core human values from growers to consumers as well as ensure social responsibility in all production processes.

Vision

We are committed to becoming the leading manufacturing and supplying partner in Vietnam, providing high-quality dried agricultural products and freezing from natural sources.

Core Value

We focus on not only developing businesses and the agricultural sector but also responsibilities to society and the community. Over the past 10 years, we've been always doing with the heart and vision of business that cares about the farmers' benefits, the workers' life and the consumers' health.

Target

To be the best Vietnamese manufacturer and supplier to provide the premium quality F&B related products with nature origin to all consumers worldwide to help them have the happy and healthy life.

Our Farm

Natural Farming System

- Not use chemicals such as fertilizers and pesticides;
- Help to reduce environmental pollution and ensure the health of people.

Human Resource

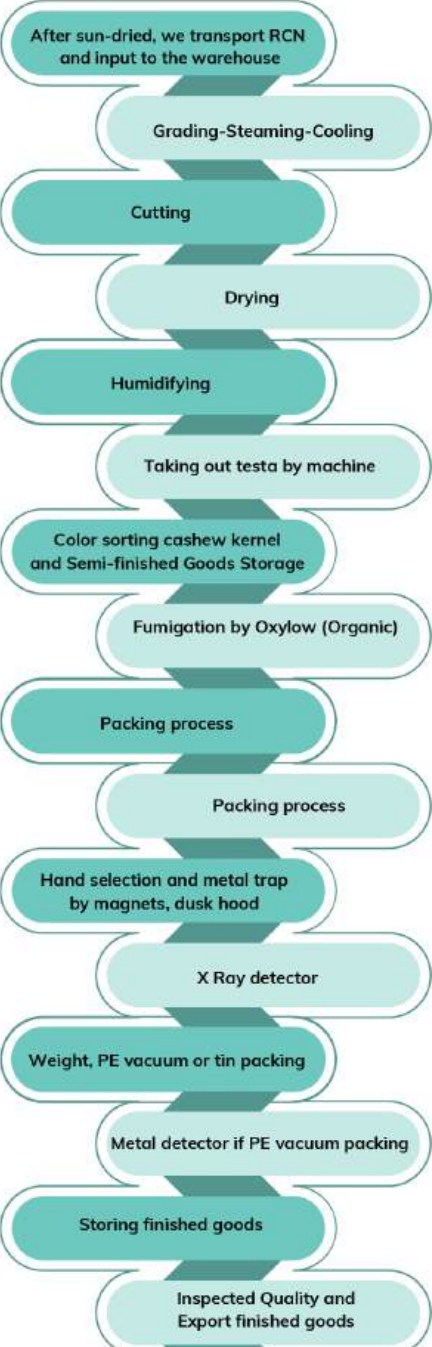

We focus on not only developing businesses and the agricultural sector but also responsibilities to society and the community. Over the past 10 years, we've been always doing with the heart and vision of business that cares about the farmers' benefits, the workers' life and the consumers' health.

Factory

Our vision is to become the leading partner in Vietnam for supplying high-quality dried and frozen agricultural products from natural sources. We aim to provide global consumers with safe and healthy products, contributing to their happiness and well-being.

Delivering good quality products to domestic and international consumers.

Our Commitment

CPT Corp commits to bring "happy and healthy product" to consumers by aiming to development according to SRTQT's model: "Sustainable - Responsible - Traceable - Quality -Transparent"

1. Sustainability

With the goal of sustainable development, CPT Corp selects input materials from clean raw material areas and meet organic quality standards. The process of handling raw materials applies a modern closed process, but we still ensure environmentally friendly cultivation and production chain, from which the output product will make sure nutrition for everyone

2. Responsibility

Toward “Farmers – Employees –Consumers”

Based on the sustainable development chain, CPT Corp will cooperate with farmers and employees to create a source of clean, nutritious organic products for consumers.

The factory must ensure 3 criterion:

- Quality and safe products for consumers
- Work safety and life quality for employees
- Improve living standards for farmers

3. Traceability

CPT Corp has direct contracts with the farmers involved organic farming and material suppliers system are audited annually. This is vital because we can assure full traceability of our products to our esteemed customers

4. Quality

The stable quality is our commitment. We always listen and have deep understanding about quality requirement each customer, from that we can supply the most suitable and stable quality to each customer.

5. Transparency

Trust in business is very important, we are building transparency business in both within the Company and with all customers as well as suppliers system. All information and feedback must be share together.
